

# Ambertex Universal Export

## World class Textile Products

Adhering to latest global trends & styles

The Leading Knitted Garment Manufacturer

## About Us

Ambertex came to life in 1986, initially manufacturing in England. Now our design and marketing teams are based in our UK offices.

Ambertex Universal Export (AUE) was established in 2003 in Tirupur India. Its parent company TJYN, was established in 1988 and has been involved in yarn dyeing and yarn mercerising for more than 25 years.

The year 2003 has turned out to be a milestone year for Ambertex Universal Export as it stepped into the textile garments industry.

AUE has fully equipped manufacturing factories in Tirupur India, producing jersey products including rugby's/polo's, sweats, joggers and t-shirts for both Men and Boys.

Modern, socially aware and a member of Sedex, Ambertex is proud of its ethical trading policy, which has been independently evaluated and endorsed by BVQI and SGS. With a reputation for delivering quality service and products, from concept to fulfilment, the business has won prestigious growth.

A complete suite of client services includes:

- Researching and sourcing raw materials
- Sample development
- CAD design and styling
- Manufacturing control
- Order tracking
- Export documentation
- Logistics support
- Quality assurance - underpinning every facet of the business

Design excellence is a hallmark of the company ensures Ambertex products not only complement existing ranges of our customers, but consistently surpass the expectations of discerning clients and end users.

The company's management team comprises of experienced professionals equipped with an in-depth knowledge of the fashion industry, a comprehensive supply chain network and over two decades experience in managing projects efficiently and cost effectively.

Our business vision is simple: To be recognized as one of the best garment makers in the world, by consistently delivering the right fashion, at the right time, at the right price

### Fair Practices

As a company we believe in fair working condition for all our team. We make sure our team gets all benefits as per local law. We follow ETI code of conduct.

## Products

AUE offers a fine range of knitted garments enabling the company to provide latest fashion solutions to the international clothing market. Committed to undertake knitted garments production with an unwavering focus on attaining the market leadership, AUE excels in all aspects to exceed customers' stringent expectations and aspirations.

### Our Products Range

AUE produces wide variety of menswear and boyswear garments including rugby's, hoody's, pullovers, t-shirts, joggers and nightwear. We are handling variety of fabrics made in India as well as other countries.

We also provide top class double jersey, mini jacquard, bio washed, mercerized, peached twills, basic jersey, interlock and all types of yarn dyed products.

All these products are environmental-friendly and meet REACH quality standards.

## Infrastructure

### Infrastructure & Quality

AUE boasts of an inquisitive technically-strong team that weaves magic to come up with diverse ranging creative designs and patterns on scintillating themes that could fulfil different ages groups of men's and boy's clothing needs.

We take additional care and enforce stringent process measures to produce outstanding quality garments as we cater to diverse markets where our customers vary from small kids to mature adults.

### Infrastructural Advantage

**Infrastructural excellence is an internal strength of our company**

- Our manufacturing facility has 400 advanced machines spilt into two factory setups. The main factory with 250 machines serves UK customer, which is SEDEX approved factory with 400 permanent workers
- We are Oekotex certified garment vendor and we specifically emphasize on the aspect that all the fabrics meet stringent regulations and standards
- In terms of value addition, we are strong with new print techniques and embroidery option
- We see to it that fabrics are made from the renowned Oekotex suppliers and we follow 4-point system for fabric inspection
- Our lead time starts from 6 weeks for repeat programs. Our strength is strong fabric sourcing, innovative designs and quality make up.

# Process Capabilities

## Quality Advantage

- Our factory has been audited by BVQI for ETI. We are in the process of getting SA8000
- We have implemented AQL 2.5 level quality and standards. Hence, right from the raw material to the finished product, quality control is stringently exercised
- The fabric undergoes quality control test at the quality control lab
- The QC lab is fortified with complete facilities to ensure that our garments meet the requirements and specifications
- Tests are done as per international standards in external lab facilities as well.

### **Fabric**

We maintain excellent association with knitting and dyeing factories. Dyeing factory follows chemical approval by GOTS. We follow our own RSS forms. We have handled many kinds of fibre blends with different fabric knits. (Knitting design, like 4 track designs, jacquards, special fabric finishes)

### **Fibre**

- Cotton, polyester, viscose, modal, marls and its blended compositions.

### **Printing**

- Our trendy print designs can create impressive impressions. According to the requirements of printing, the cloth is processed for various colours, designs, qualities and other specifications.

- Fully automated multi-colour printing is done fulfilling all quality requirements. We specialise with chest, placement, all over prints. The prints include pigment, discharge, reactive, high density, rubber, flock, glitter, transfer foil and so on. We do printing in tie up factory.

### **Embroidery**

- Augmented with fully automatic high-speed embroidery machines, the embroidery unit is equipped to cater to the most demanding design needs.

- We use a diverse range of fabrics, to create the subtle look to match the personality and the occasion. We work with our partner's concern, which has a facility of 4 advanced embroidery machines

### Washing

- Our sophisticated facility has multiple wash option such as Silicon, Stone, Enzyme, Biowash etc. We are working with a renowned and nominated washing unit based in Tirupur.

### Sewing

- The production line for finishing has high-tech machines like JUKI and PEGASUS. The well trained and skilled workforce engaged in stitching are supported by highly experience Line supervisors and Quality controllers, who check every garment under production to ensure flawless stitching we can meet our commitments regarding quality and delivery

- AUE is capable of diversifying and multiplying its product range manifold depending on the requirements by its customer. The state of art machineries and agile infrastructure enabled the company to append its product range to an unlimited extent. Currently it is rugby's, polo's, ladies cami and pyjama sets.

### Finishing

- We perform 100% needle detection on all the finished garments before packing so that flawless delivery is ensured. We follow WRAP norms in needle detection area

- All garments are steam ironed and machine pressed meticulously. All the garments are hand picked with care and stored for subsequent transportation to various destinations
